Aliaa Krado

Quality Assurance Specialist
Damascus, Damascus Governorate, Syria

Summary

I am a passionate Quality Assurance (QA) Engineer with over 4 years of hands-on experience ensuring software excellence, reliability, and top-tier user experiences. My core foundation lies in meticulous manual testing, functional verification, and API testing, combined with a strong background in leading team workflows and managing quality standards. Driven by technology evolution, I am actively expanding my capabilities from manual testing into modern test automation. Currently, I design and implement automated test scripts leveraging TypeScript and Playwright inside VS Code, while utilizing AI tools like Codex to maximize efficiency and optimize test coverage.
